

CSS - Part Time Saw Operator Job Description

Overview

Custom Stainless Steel, Inc. is seeking a dependable, detail-oriented Part-Time Saw Operator to join our production team in Benton, Illinois.

This hands-on manufacturing position is responsible for measuring and cutting stainless steel, aluminum, and other materials to the dimensions and angles required for production. The Saw Operator plays an important role in making sure materials are cut accurately before moving to the next stage of manufacturing.

Previous saw or manufacturing experience is preferred, but we are willing to train the right candidate who is mechanically inclined, dependable, and willing to learn.

Duties

- Operate or learn to operate wet saws, chop saws, cold saws, hot saws, band saws, and other cutting equipment
- Measure materials accurately using a tape measure
- Cut materials to specified lengths and angles
- Read and follow work orders, measurements, and production specifications
- Verify completed cuts for accuracy and quality
- Identify and report incorrect measurements, damaged material, or other production concerns
- Handle stainless steel, aluminum, and other materials safely
- Maintain a clean and organized work area
- Follow company safety procedures and equipment requirements
- Work with other members of the production team to keep materials moving efficiently through the manufacturing process

Qualifications

- Ability to accurately read a tape measure
- Basic understanding of fractions, measurements, and angles
- Strong attention to detail
- Dependable attendance and work habits
- Ability to follow written and verbal instructions
- Comfortable working with hand tools, power tools, and manufacturing equipment
- Willingness to learn new equipment and manufacturing processes
- Ability to work safely in a hands-on production environment

Experience with saws, metal cutting, stainless steel, aluminum, fabrication, construction, carpentry, manufacturing, or other skilled trades is a plus.

The ideal candidate takes pride in doing the job correctly, pays close attention to measurements and specifications, and can be counted on to produce consistent, accurate work.

Job Type: Part-time

Work Location: In person – Benton, Illinois
